Nature's Pond Conditioner

Official Release

Nature's Pond Conditioner -- *RENEW your Water*

Excess nutrient load is a dangerous and costly problem plaguing ponds and lake across North America and beyond. Industrial pollutants, fertilizer run off, fish and animal waste and some household detergents flow into ponds and lakes, dramatically increasing the nutrient load in the water. This increased nutrient load leads to pond sludge build-up, murky water and algae blooms, including toxic blue-green algae.

Our complete, **all-natural 3-Step Pond Care Program**, including pond conditioner, aeration and manual aquatic plant removal, is designed to address nutrient pollution at its source, to give you clean, clear water that lasts.

Step 1: **RENEW your water with Nature's Pond Conditioner.**

Nature's Pond Conditioner is an all-natural blend of beneficial bacteria, enzymes, plant extracts and a food grade dye, which works to break down and consume excess nutrient load in your pond, or lake.

FEATURES (BENEFITS)

- Cleans and clears water
- Reduces pond sludge by up to 12 inches/year
- Reduces foul odors
- Enhances natural color of water
- Improves water quality for healthier fish and livestock
- Enhances the color of your water
- Seasonal applications keep water healthy year round
- Prevents off-gassing and fish kill
- Lessens potential of insect breeding
- Easy to Apply – just pour it in according to directions
- All-in-one treatment eliminates the need for multiple pond treatment products
- All natural and safe for people, pets, birds, fish, livestock and wildlife
- Can be used after herbicide, or algaecide treatment to consume decaying organic matter and prevent pond sludge build-up

Nature's Pond

Nature's Pond Conditioner

Official Release

Material Safety Data Sheet

Product Name: Nature's Pond Conditioner

Product Use: Water Enhancer

Ingredients:

Surfactants 1-2%	Dispersant 0.15%
Opacifier 0.3%	Fragrance 0%
Bacteria/Enzymes	Preservative 0% (Fall & Winter: 0.075%)

Physical Data:

Boiling Point 212° F / 100°C	Specific Gravity 1.002
Vapor Pressure (mmHG) N/A	Percent Volatile 0
Vapor Density N/A	Evaporation Rate N/A
Soluble in Water	Appearance/Odor Blue-Green/Citric

Fire and Explosion Hazard Data:

Flashpoint:	Non-Flammable
Flammable Limits:	N/A
Extinguishing Media:	N/A
Special Fire Fighting Procedures:	None
Unusual Fire and Explosion Hazards:	None

Additional Information:

Storage of product below 32 0 F may result in layering. Shake well before using. Swimming, Fishing and Irrigation can be done immediately after application

IMPORTANT: Exercise normal hygiene practices when using bioactive products.

DISCLAIMER: A specific, safe and effective bacteria formulates the blend of ingredients in Natures Pond Conditioner and Natures Pond Conditioner Extreme. All the microbial products, liquid and dry are comprised of safe, non-pathogenic organisms included on the USEPA toxic substance control act (TSCA) inventory of natural occurring organisms and in the Canadian Domestic Substances List (DSL). All products used are bio-degradable, leaving no hazardous or complex residues. Organisms used in NPC are recognized as safe for humans, livestock, fish and all other animal life. NPC is meant to be used for irrigation, recreational and decorative ponds/lakes and has a suggested application depending on the size of the water body that you are treating. Use as directed and use normal hygiene

Nature's Pond

Nature's Pond Conditioner

Official Release

Treatment Recommendation:

How much pond conditioner do I need? This is a question we hear all the time. First, figure out the surface area of your pond. If you don't know exactly how big your pond is, use our estimation guide below. Next, figure out the depth of your pond. Our pond conditioner guide is for a pond that is 5-6ft deep. If your pond is 10-12ft deep, you'll need double the treatment amount.

Tailor your pond's treatment according to climate:

- Hot:** 3-4 treatments per year: May, July, August, October
- Moderate:** 2-3 treatments per year: May, July, August
- Cold:** 2 treatments per year: June, August

TO ORDER:

Nature's Pond Conditioner Spring and Summer

- 1 Quart-- SKU: 30084 UPC: 888935-00251-7
- 1 Gallon-- SKU: 30086 UPC: 888935-00303-3
- 5 Gallon-- SKU: 30125 UPC: 888935-00309-5

Nature's Pond Conditioner Fall and Winter

- 1 Quart-- SKU: 30084X UPC: 888935-00310-1
- 1 Gallon-- SKU: 30086X UPC: 888935-00311-8
- 5 Gallon-- SKU: 30125X UPC: 888935-00312-5
